74 year old woman before and after 4 micro-needling treatments

45 year old before treatment with tapping type microneedling device with topical uncrosslinked HA applied immediately post treatment.

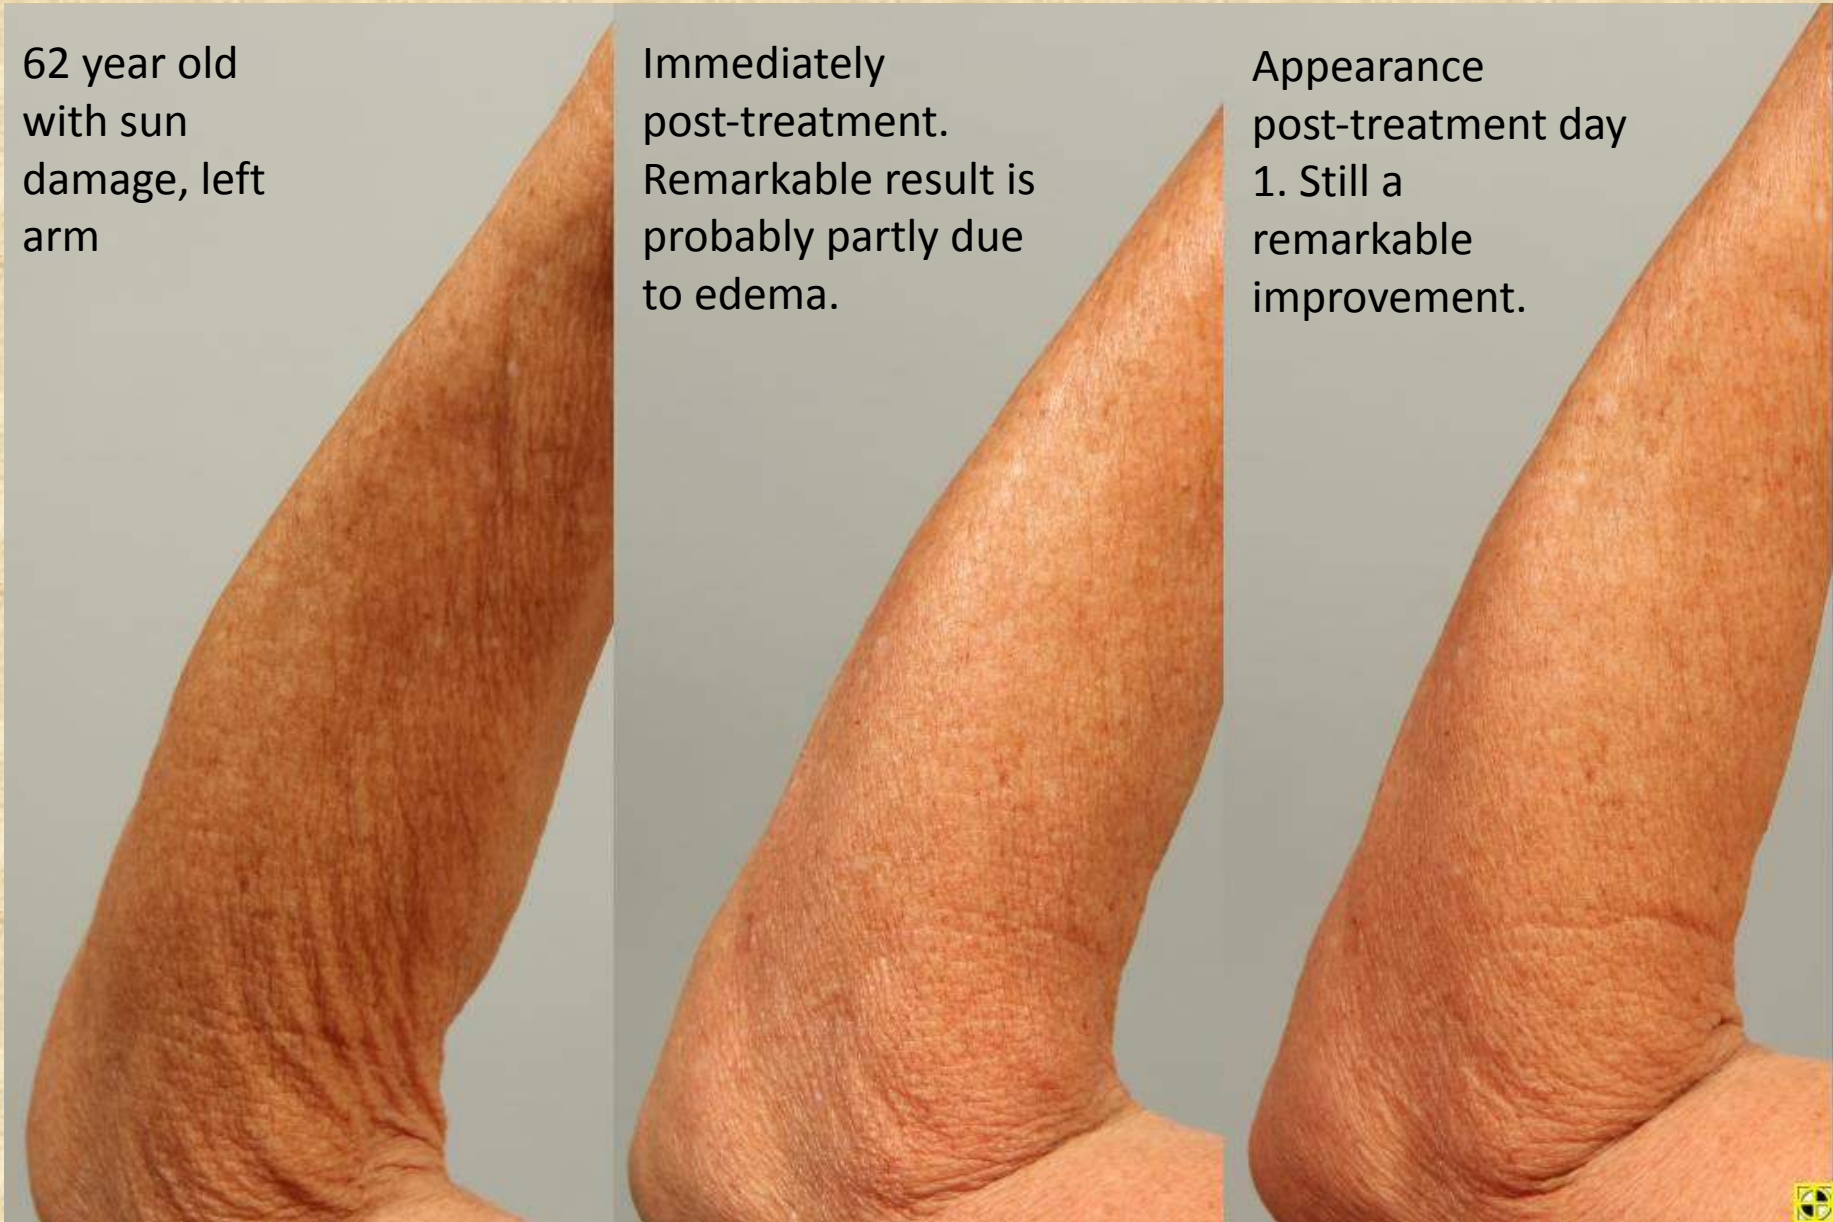

3 weeks following a single treatment. Note significant improvement in skin texture and tone.

62 year old
with sun
damage, left
arm

Immediately
post-treatment.
Remarkable result is
probably partly due
to edema.

Appearance
post-treatment day
1. Still a
remarkable
improvement.
