

TO THE MOST IMPORTANT MEMBERS OF OUR TEAM

Every story has a beginning - a moment where the spark of creativity meets the fuel of ambition. Over time words become actions, actions incite invention, and invention changes the face of an industry. What started as one doctor's desire to build a better device for his practice has become a revolution that is changing skin care for patients and practitioners alike. And this is only the beginning.

Words can't explain how humbled and grateful we are to have you join our team. This package doesn't just contain your ProCell Startup Kit, it represents a new page of our story that we are about to write together. The ProCell story has been written over five years by thousands of practitioners across all 50 states, and now with you we are ready to co-author another page.

With Great Appreciation,
The ProCell Family

WHAT IS IN MY PROCELL KIT?

procell
THERAPIES

Pro System

MICROCHANNEL DELIVERY SERUM PRO

Highly concentrated human growth-factor serums derived from bone marrow mesenchymal stem cells which are known to promote scarless healing in an anti-inflammatory environment. Amplifies your client's collagen response during MicroChanneling treatment!

MICROCHANNELING TIPS

- Three "spot" sizes: Precision, Face, and Body
- Design prevents "blowback" and cross-contamination
- Provides accurate depth of penetration
- Needle lengths available from 0.25 to 1.5 mm

CELLULAR RENEWAL & HEALING ACCELERATOR SERUMS

This fast and easy two-part aftercare system replaces everything on your client's shelf. A powerhouse of physiologically-balanced growth factors and cytokines, potent peptides and protective antioxidants. Used in in the AM/PM to provide enhanced anti-aging, pro-healing and anti-inflammatory benefits. Stronger results with shorter down times!

THE PROCELL SYSTEM CONTAINS 3 STEPS:

STEP
1

Prepare the skin for MicroChanneling by disinfecting, cleansing and exfoliating to allow better penetration of product.

STEP
2

MicroChanneling produces minimally invasive linear microchannels that allow the product to penetrate throughout the epidermal layer.

STEP
3

ProCell's growth factor serum produces immediate skin-plumping and communicates with the body's fibroblasts to produce natural collagen and elastin.
